

CANNED SOUP IS THOUGHT CAUSE OF POISONING FOUR

Clermont County, Ohio; Tobacco
Growth Was in Critical Condition
For Several Hours—All of
Poisoned Are Improving.

For a time Wednesday night it was thought that Milton Byrne, of New-
township, Clermont county, Ohio,
would die at the Goodwin restaurant
and rooming house in East Second
street from the effects of pomanine
poisoning. William Auxler, also of
Clermont county, and Mr. and Mrs.
Frank Goodwin, all three of whom
were also taken ill, were never in so
serious condition as Byrne and soon
showed signs of recovering.

All four took violently ill late Wed-
nesday afternoon. It is thought that
they were poisoned from eating can-
ned soup at about the dinner hour.
Physicians were summoned as soon as
they took ill and pronounced the ill-
ness due to poisoning.

Auxler and Mr. and Mrs. Goodwin
were soon relieved but Byrne was in
an unconscious stupor for several
hours and this morning was still quite
ill, although enabled to talk to those
about him and physicians say he will
now recover. Last night his recovery
was very doubtful.

Both Byrne and Auxler had brought
crops of tobacco to Mayville for sale
and were boarding at the Goodwin
restaurant. Another Clermont county
groomer, who was with them, had not
eaten of the soup and was not taken
ill.

Spring hats have arrived at Mrs. S.
Arm's millinery. 19Jan21

EDDINGS HAD NOTHING TO SAY.

Henry L. Eddings who was delivered
to the state penitentiary Wednesday
by the sheriff to begin his life sen-
tence behind the bars was asked if he
had anything to add to what he had
already said before he was turned
over to the penitentiary officials but
the man had nothing to say although
he expressed regret that he had not
said more before he was sentenced.

BACK FROM CAPITAL.

County Judge H. P. Purnell has re-
turned from Frankfort where he held
a conference with Governor Morrow
and the head of the State Road De-
partment. Judge Purnell is making
an effort to book the Maysville Boys'
Band to furnish music for the Ken-
tucky State Fair next year.

THIEVES LOOT RAILROAD CARS ON SIDING

C. & O. Carpenters Are Robbed Last
Night By Smooth Thieves Who
Enter Work Cars.

Sometime last night while the mem-
bers of a gang of railroad carpenters
who are now engaged in making re-
pairs to the Limestone street trestle,
were sleeping in their cars which are
sidetracked at the Limestone street
siding, thieves entered the cars and
ransacked the clothing of every mem-
ber of the crew.

When the carpenters awakened this
morning they found their clothes had
been searched and had been thrown
about the car with pockets turned in-
side out. Fortunately none of the men
had much money in their clothes and
the thieves obtained only about four
or five dollars in money. Two annual
passes on the C. & O. railroad were
also stolen and a valuable pair of
rubber boots are missing.

Police have been notified and are
searching for the thieves. Marked
money which the thieves stole is ex-
pected to betray them.

FIRE OF SIX MONTHS AMOUNT To \$7,636,956 In Kentucky.

Frankfort, Ky., Jan. 19. — There
were 594 fires in Kentucky between
July 1 and December 31, 1920, the
value of the property destroyed
amounting to \$7,636,956, with insur-
ance amounting to \$4,614,815, leaving
a loss of \$3,022,141, according to a re-
port filed today with State Auditor J.
J. Craig.

The total number of fires of un-
known origin during the period were
107, of which 36 were investigated.
Fourteen of the fires were submitted
to the grand jury, resulting in three
convictions and 11 cases are still
pending.

DOG OWNERS SLOW IN TAKING OUT LICENSES.

County Clerk Owens reports that
although this time last year he had
issued over 1300 dog licenses, he has
issued as yet only 500 1921 licenses
which would indicate that there are
many who are failing to procure li-
censes for their dogs.

BABY BOY DIES.

The six months old son of Mr. and
Mrs. Jack Foley died at the home of
the parents in the Fern Leaf neigh-
borhood last night after a short ill-
ness.

Mrs. A. B. Crutcher, of Frankfort,
is visiting her mother, Mrs. John Wat-
son, of West Front street.

HOUSEKEEPER DEAD PROBABLY A DAY BE- FORE DISCOVERED

Mrs. Lou Case Housekeeper For Dr. A.
N. Ellis at Aberdeen Is Found
Dead on the Kitchen Floor
Wednesday Afternoon.

Mrs. Lou Case, aged about 65 years,
sister-in-law of Dr. A. N. Ellis, of Ab-
erdeen, and his housekeeper was
found dead in the kitchen of the Ellis
home Wednesday afternoon. It is
thought that she had been dead more
than twenty-four hours when found.
Physicians say her death was due to
natural causes.

On last Monday Dr. Ellis left for
Kansas to visit a brother, leaving Mrs.
Case at the Ellis home by herself.
When he left Mrs. Case was in her
usual good health. On Tuesday after-
noon Miss Myrtle Sutton, a relative,
went to the Ellis home to call on Mrs.
Case and found the front door of the
home locked. She knocked several
times but received no answer. Think-
ing that Mrs. Case was probably not
at home, she left without further in-
vestigation.

Yesterday afternoon a special deliv-
ery letter came to Mrs. Case and the
Aberdeen postmaster went to the El-
lis home to deliver the letter and
could not gain an entrance nor were
his alarms answered. Thinking that
Mrs. Case might probably be at the
home of Mr. D. A. Ellis, the postmas-
ter went there. The failure of the
postmaster to summon Mrs. Case
alarmed Miss Sutton who went again
to the Dr. Ellis home and again she
found the front door locked. She went
to the kitchen, this time and finding
the kitchen door unlocked she entered
and found the aged housekeeper lying
prone upon the floor dead. Heart
trouble is given as the probable cause
of the sudden death and it is thought
that Mrs. Case died sometime Tuesday
afternoon. She had been washing
clothes in the kitchen and had fallen
near the wash tub.

PRICES REMAIN LOW ON TOBACCO MARKET

tend a big pure bred Holstein sale and
probably add to the stock of the local
company.

SENSATIONAL FIELD SUIT IS SETTLED

Peggy Marsh Marries Aviator — Suit
Against Field Estate Is
Reported Settled.

New York, Jan. 20. — Peggy Marsh,
English chorus girl, who maintains
her son, Henry Anthony, four, is the
child of the late Henry Field II., Chi-
cago millionaire, is the bride today of
Albert L. Johnson, former army avia-
tor.

They were married secretly at
Greenwich, Conn., America's "Gretna
Green," on January 5.

It was reported Field agreed to pay
\$50,000 a year to care for the child and
also to provide a \$100,000 home for
the mother here and abroad.

Johnson is a nephew of the late
Tom Johnson, Mayor of Cleveland.

Miss Marsh has been suffering from
appendicitis, but is recovering.
Her son recently was brought to
America from England to join her
here, preparatory to pressing a suit
against the Field estate, which is re-
ported to have been settled out of
court.

The suit filed by Miss Marsh de-
manded two-fifths of the Marshall
Field estate for her son. It is estimat-
ed this would have amounted to \$72-
000,000 in 1943, the date he would have
inherited it under terms of the Field
will had the suit been won.

KENTON GROWERS ARE DISSATISFIED.

Tobacco growers, dissatisfied with
present prices, will meet at Independ-
ence, Ky., court house Saturday to
complete organization plans. Growers
threaten to reduce crops unless buy-
ers offer better prices. They say the
grade of tobacco which sold last year
at 60 cents a pound now brings 6
cents.

MISS OWENS BURIED TODAY.

The funeral of Miss Anna Owens
was held this morning and burial was
made in the Maysville cemetery. There
were many out-of-town relatives and
friends here to attend the funeral.

MUCH OHIO TOBACCO DELIVERED.

Much Ohio tobacco was delivered to
the local market today. The ferry
Laurance was kept quite busy all
morning.

Mr. Nelson Ellis, of Dayton, Ohio,
arrived here today being called by the
death of his aunt.

WIN PRIZES AT EUCIRE.

Miss Alma Kriz won ladies' first
prize and Mr. James Heffernan won
gentleman's first prize at the Knights
of Columbus eucire held last night
which was well attended.

HOGSHEAD MARKET SEES NO CHANGE.

Offerings of tobacco on the Louis-
ville hogshead breaks yesterday were
the second largest of the season, to-
talling 905 hogsheads, of which 748
were new burley. Little or no change
could be noticed in the prices of the
various grades, although one quality
hogshead brought \$54.50, equaling the
high record of the season. Good leaf
again was very scarce in the offerings.

The warehousemen are receiving
numerous letters from growers who
still are in a quandary as to what dis-
position to make of their 1920 tobacco.
Warehousemen in most cases admit
frankly that they are almost as much
puzzled as the growers; the situation
is more difficult than any of preceding
years they say.

KENTUCKY LOSES A SEAT IN CONGRESS BY REDISTRICTING

After Much Wrangling House Late
Last Night Places Limit of
Memberships For Ten
Years at 435.

Washington, Jan. 20. — At the end
of the most turbulent session of the
present Congress the House late last
night adopted the reapportionment
bill with an amendment limiting its
membership for the next ten years to
the present total of 435.

The fight to prevent increase to 483
was won several hours earlier, how-
ever, when the House, sitting in com-
mittee of the whole, refused to post-
pone consideration of the whole ques-
tion of redistricting, and then voted,
198 to 77, to keep the present maxi-
mum. It was after long parliamentary
wrangling that the bill was brought
before the House itself for a final
show down. The 435 amendment finally
was agreed to by a vote of 267 to
76, and the measure made ready for
Senate concurrence.

Right at the start the effort was
made literally to knock the bill in the
head by striking out the enacting
clause. It started a veritable row,
during which the House got its feet
tangled in parliamentary proceeding,
from which it was lifted back into an
orderly run with difficulty.

Another wrangle developed over an
amendment by Representative Bar-
bour to perfect the bill by providing
the machinery for redistricting in the
eleven states which will lose seats
after March 4, 1923. The Barbour plan
and many substitutes finally were de-
feated, and several states will be left
to work out the problem in accordance
with long established custom and law.

As the bill stands the states which
will lose representation in the House
are Missouri, two seats, and Indiana,
Iowa, Kansas, Kentucky, Louisiana,
Maine, Mississippi, Nebraska, Rhode
Island and Vermont, one each. There
twelve seats will be shifted to eight
states in this order: California three,
Michigan two, Ohio two, and Connecti-
cut, New Jersey, North Carolina,
Texas and Washington, one each.

GROWER HAD TOO MUCH MOONSHINE.

S. T. Morrison, an Adams county,
Ohio, tobacco grower, was arrested
last night on a charge of being drunk.
The man said he had too much moon-
shine and in Police Court this morn-
ing was fined \$10 and costs which he
promptly paid and was discharged.

POWER OF THE GOSPEL IS PASTOR'S SUBJECT

Another Good Audience at Christian
Church Revival Hears Strong
Sermon Last Night.

Another fine audience came out last
evening to revival service at Christian
church. The size and character of
these audiences evening after evening
are a pretty good barometer of the
spiritual and religious thought of our
community. At this age and time most
people read and think for themselves
and are not so dependent on the speak-
er as in earlier periods of our
national life. The preacher of today
must bring a message not only breath-
ing a spirit of fellowship and love but
it must be couched in such simple
phrase that it goes directly to the
human heart.

"The Power of God Unto Salvation"
was the subject for the sermon, and
the text found in Romans first chap-
ter and sixteenth verse was devel-
oped in a manner to catch and hold
the attention of all present.

At the conclusion of the sermon the
rite of Christian baptism was adminis-
tered to six people who by this act
came into closer relationship with
divine purposes.

Good music is a splendid part of all
these meetings. Every one welcome.
Remember the hour, 7:15 every eve-
ning except Saturday.

"REASONABLE" SUNDAY LAWS FAVORED BY EVANGELIST.

Pastor John Mullen, who is con-
ducting a revival at the Christian
church has a question box in which he
asks all to place any questions in re-
gard to religious matter which he will
endeavor to answer. Last night one
of the questions was in regard to the
proposed Blue Law legislation. Mr.
Mullen answered the question at
length favoring a "reasonable" law
enforcing the sanctity of the first day
of the week.

FORMER LOCAL TEACHER SUFFERS BAD FALL.

Relatives and friends here were ad-
vised today that Miss Sue Grant, for-
mer local school teacher, had suffered

will be grieved to learn of her pain-
ful accident.

STUDENT TEACHERS MAY HAVE CHANCE TO TAKE WORK HERE

Extension Department of Normal
Schools May Provide for Super-
intendent Caplinger to Conduct
Normal Class Here.

Mr. William Coates, of the Exten-
sion department of the Eastern Ken-
tucky Normal School, was in Mays-
ville yesterday making arrangements
under the recent provision for home
work, to conduct here during the sum-
mer months a special course in Nor-
mal work which will enable prospec-
tive teachers to qualify under the new
law which makes it necessary for all
state teachers to have some high
school work.

It has been necessary in the past for
those who desired to prepare them-
selves for teaching to take a special
course at the state Normal schools or
to take a correspondence course,
which it seems has not proven entire-
ly satisfactory.

If proper arrangements can be made
Mr. Coates would have Superintendent
W. J. Caplinger, of the Maysville City
Schools, supervise or conduct a course
in Maysville which will enable all
those who desire to become teachers
to qualify themselves after they have
had a certain amount of class room
work.

If such a plan is worked out here it
is thought that there will be many
more who will endeavor to qualify for
the teaching profession.

OUR POLICY

To support such measures as are unquestionably for the good of Maysville County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

MEANING OF WORD "SERVICE."

For four to six years this country has been going through a most unnatural period and the most unnatural conditions of all is the fact that SERVICE counted for little or nothing.

In a world of people—producers, consumers, sellers, workers and neighbors—there is word that begins to equal the word "service."

While you and the writer are serving one persons or one concern and earning a living, each individual of us is being served by at least 25 others. Work that statement out in a few moments of study and perhaps you will find that a good many more than 25 human folks are serving you. There's that suit of clothes you wear. The boy who herds the sheep flock; the man who shears the fleece; the farmer who wags it to the freight car; the railroad men who haul it to the market; the fellow who cleans the wool; the man who cards it; the worker who makes it into cloth; the tailor and lastly the store-keeper or clerk who sells you the suit—all these serve you.

Are they serving you to your satisfaction? Are you yourself serving others to their satisfaction?

Have you a kick coming at the way you are served by this, that and the other person? Have they a kick coming at the way you serve them?

Briefly, are you doing your work to the best of your ability? Are you giving good service in this world of men and women who are dependable on you and on each other?

The four to six years of unnatural conditions are being liquidated. Costs of goods are going down. Labor's wages are slowly following. Service is going to count again whether you are a business man, professional man or a laboring man.

He who wins during the coming ten years is the man who gives worth-while service.

THE PROTECTIVE THRIFT PRINCIPLE.

Among other thoughts for Thrift Week is the very well worth-while reflection that saving is but one phase of the principle. It is a most essential phase to be sure, for without saving in some form there is no thrift. But to the habit of saving must be added the practice of safe investment, and to safe investment the principle of sane protection. It takes all these to constitute a well-rounded system of thriftiness, the fruits of which if properly carried out are contentment, comfort, home and happiness in a fraternal but independent fellowship with mankind.

This is Life Insurance Day of Thrift Week and is suggestive of one of the most important forms of preparedness against life's uncertainty. Savings grow slowly but surely—as long as they are added to with regularity. But if something should happen they stop suddenly. In such case the home upon which payments are being made may be lost. The bank account may be sacrificed for needed expenses. Thus sometimes the benefits of such frugality and careful economy vanish for lack of protection. Insurance comes in here as an admirable adjunct to one's thrift program. As written now insurance is investment and protection combined. Every policy carries a paid-up value from the start and a cash value at maturity, and all in between protection in the sum of its value in full.

CLASS VIOLENCE SUPPLEMENTS CRIME WAVE.

There is a decidedly explosive tendency having manifestation in adjustment of industrial differences here and there throughout the States, but Pennsylvania appears to be rather more infected with the virus of violence than some other sections. In evidence is the dynamiting of homes at Pittston in the mining region and in the bombing of a taxicab, with murder results, in the so-called city of brotherly love, Philadelphia. We are becoming all too calloused to the epidemic of gunmen homicides incidental to the hold-up industry so generally and so thrifty carried on with none too efficient interference on the part of society's protective agencies. That in itself is evidence of radical weakness somewhere in moral and legal conservation of social standards. It is indeed shocking beyond expression. But the resort to secretly-planted high explosives seems somehow even more repulsive. It calls for drastic action. Perhaps renewal of attention to the radical element by federal authorities, as well as those of the States, might have a salutary effect.

BLIND FROM BIRTH, BOY SEES FLAG AT TWELVE.

Louisville. — Blind from birth, 12, a lad from the Kentucky mountains whose name is given for publication by the Red Cross only as "Willie," had his first photograph made with the Stars and Stripes which he saw for the first time when bandages were removed after an operation here. He left for the home he has never seen. "Golly! rabbit huntin'," he said when asked what was the very first thing he proposed to do upon arriving.

Foley's Honey and Tar COMPOUND

CLEAR THE THROAT of phlegm and mucus, stops that tickling, opens the air passages for easier breathing and cools the raw, inflamed surfaces with a healing, soothing medicine.

Grateful Father Tells What It Did W. E. Curry, 120 Up 9th St., Evansville, Ind., writes: "I have a little girl 6 years who has a good deal of trouble with croup. I have used Foley's Honey and Tar Compound, giving it to her according to directions, and obtaining instant relief for her. My wife and I use it whenever bothered with a bad cold or cough, and I will say that it is the best remedy for a bad cold, cough, throat trouble or croup that I ever saw."

Parents who use Foley's Honey and Tar know it is safe and no harm will come even if an overdose should be given by accident. It tastes good and children like it. It won't upset the delicate stomachs of young children, delicate persons or elderly people.

NOTHING WRONG EXCEPT "RUN DOWN"

Heart All Right — Lungs All Right But BLOOD WEAK

NO ENERGY OR ENTHUSIASM

That's When You Need Pepto-Mangan — The Red Blood Builder.

When you feel weak and almost sick see a doctor and find out what is wrong.

It may be a serious illness. But in many cases the doctor finds nothing really wrong except a general run-down condition due to the need of stronger, richer blood.

For over thirty years physicians have recommended Gude's Pepto-Mangan to restore weakened blood to its normal healthy state.

Pepto-Mangan imparts to the blood the elements it needs to build up vigorous men and women. Children whose blood is impoverished become listless and pale and fail to romp. Pepto-Mangan creates a supply of nourishing red blood that makes the cheeks glow, the eyes sparkle and brings back the energy for play or studies.

Pepto-Mangan is obtainable in liquid or tablet form, whichever proves most convenient. Both forms possess identical medicinal qualities. There is but one genuine Pepto-Mangan and that is "Gude's." Ask your druggist for "Gude's" and look for the name "Gude's" on the package. It is not there, it is not Pepto-Mangan.—Advertisement.

New York Letter

New York. — No political committee got bold of the only woman congressman, Alice M. Robertson, of Oklahoma, when she was in town the other day. No reception committee, no earnest band of leaders, had anything to say about how she spent her day here. In fact she didn't let them know she was here. She wandered about the shops, gave advice to young women she saw buying kitchen utensils, ate lunch in an automat for the fun of watching the crowds there, and refused even to talk politics to the reporters who finally discovered her by accident. "I can talk all the politics that's good for a person out there at home or in Washington," she said. "When I'm in New York, I'm a country visitor from Oklahoma and that's the way I'm going to spend my time."

Probably the most discussed and most scrapped about actor in New York this season is Ben Ami, who is making his first appearance on the English-speaking stage. You can start a row many times a dinner party grows tame by asking the general assemblage whether he's really as good as they say he is. Guy Pene DuBois, well known in literary circles, is one of his most ardent admirers. He was sitting next to a distinguished looking man the other night and started in on his favorite topic. "They speak of Ben Ami as being as good as John Barrymore," he said, "but it seems to me he starts in where Barrymore leaves off." "Much, much better," agreed his new friend. "Well, you're a kindred spirit," said DuBois. "I'm sorry now that I didn't catch your name in those mumbled introductions." With an embarrassed smile the other responded. "It's John Barrymore."

Domestic science teachers have pretty well interfered with our natural appetite and enjoyment of food after we got it with all their insistence on our learning about calories and proteins and things. Now comes Miss Emma R. Baker, of Teachers College, Columbia University, and declares that color adds character to a meal and that we must not, MUST not, have ham and beans, for instance, at the same meal. Somehow, we don't believe the average housewife, however docile she has been generally, will say anything more to this than "Must not, indeed!"

The religious film, "Behold the Man," the story of the life of Christ, which has been considerably discussed in anticipation, had its first showing the other day. The question which had been most raised, as to whether it would be done with sufficient reverence, was satisfactorily answered. In the film, a mother tells the story of the life of Christ to her two children at bedtime. The picture is done in natural colors, which adds to its attractiveness, particularly for two children, who have been most kept in mind in the writing and production of the picture.

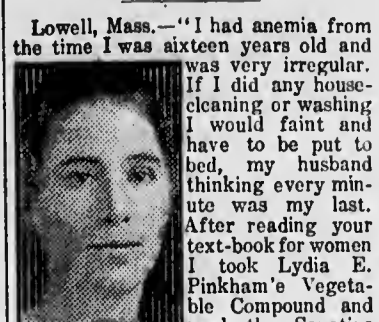

The 141 jobless men who filed into the Sunday morning service at Trinity church last week, were about as cheery a looking lot as I've seen in a long time. They were smiling so gleefully that they almost brought echoing smiles to the faces of some of the most serious and world-weary of the more regular attendants. To begin with, they were most of them young and they had taken a good brisk walk down from Teat street, had their pictures taken on the way, and had a fine reception at the church. They were humming lively little tunes just before they entered, but seemed to get as much enjoyment out of the hymns once they were inside.

THIS WOMAN'S EXPERIENCE

Brings a Ray of Hope to Childless Women

Lowell, Mass. — "I had anemia from the time I was sixteen years old and was very irregular. If I did any housecleaning or washing I would faint and have to be put to bed, my husband thinking every minute was my last. After reading your text-book for women I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash, and have never felt better than I have the last two years. I can work, eat, sleep, and feel as strong as can be. Doctors told me I could never have children—I was too weak—but after taking Vegetable Compound it strengthened me so I gave birth to an eight-pound boy. I was well all the time, did all my work up to the last day, and had a natural birth. Everybody who knew me was surprised, and when they ask me what made me strong I tell them with great pleasure. I took Lydia E. Pinkham's Vegetable Compound and never felt better in my life." — Mrs. ELIZABETH SMART, 142 W. Sixth St., Lowell, Mass. This experience of Mrs. Smart is surely a strong recommendation for Lydia E. Pinkham's Vegetable Compound. It is only one of a great many similar cases.

One of the most interesting men in all New York City is Carl Henry Andrew Bjerrgaard, oldest employee on the staff of the Public Library. Back in 1879, he became Chief of the Readers' Division of the Reference Department of the old Astor Library, when the job meant giving expert first aid to almost everybody in New York condemned to write a "composition." He landed here from Denmark in 1873, worked in a factory, and when the panic of that year, threw him out of his regular work, taking a job to help the porters sweep out. While still "sweeping out" he got a chance to lecture on philosophy evenings, and kept these two activities going on together for months. This year, an exhibition of his own art work was published, oils and water colors, crayons and pen-and-ink drawings, yet he had never taken a brush in hand until he was 71 years old.

Waiting doesn't pay. If you neglect kidney backache, urinary troubles often follow. Doan's Kidney Pills are for kidney backache, and for other kidney ills. Ask your neighbor. Maysville citizens endorse them. Ben P. Fleming, country constable, 228 Limestone street, Maysville, says: "I have used Doan's Kidney Pills off and on for several years when I have needed them. I always get Doan's at Wood & Son's drug store. I have been greatly benefited by them. At times my kidneys get out of order and I suffer with a dull constant ache through the small of my back and the urinary secretions are irregular in passage. A box or so of Doan's have never failed to relieve the trouble in a short time."

The above statement was given November 14, 1916, and on November 22, 1920, Mr. Fleming added: "I am glad to renew this statement. I gave for publication some years ago as the cure Doan's Kidney Pills made for me is still permanent. I confirm my former statement in every detail as it was all true."

ARMED NEGROES ROB YOUNG WOMAN ON THE STREET.

OFFICIALS HEAR BOOZE ON HIPS; GIRLS WEAR 4 GARMENTS

Louisville. — In an arraignment of local conditions, Dr. Charles W. Welch declared that state, county and city officials here "go about with whiskey flasks on their hips;" that society girls are sent to dances "with only four garments on, and two of them are stockings," and that a dance hall is permitted in Louisville at which which whites and blacks of both sexes dance together.

GOVERNMENT TO TAKE HAND IN TOBACCO STANDARDS

U. S. Department of Agriculture To Start Investigations to Establish Uniform Tobacco Standards.

Washington. — In order to assist in placing the marketing of tobacco upon a more business-like basis, the United States Department of Agriculture is about to begin investigations which will lead to the establishing of tobacco grades applicable throughout the entire industry. Though tobacco ranks fourth among the crops of the United States, returns more than \$1,000,000,000 a year in agricultural wealth to the Nation and more than \$300,000,000 in annual revenue to the Government. It is marketed in a manner which produces of less important crops would regard as a short cut to financial ruin.

For this condition, the specialists of the Bureau of Markets, Department of Agriculture, blame primarily the auction system of sales in certain sections and the private contract system in other localities. Under the former method loose piles of tobacco to be sold are placed on the floor of a warehouse and examined by the prospective buyers. The tobacco is not graded, nor does the owner have much opportunity to describe the merits of his product. The auctioneer then offers the tobacco for sale and the buyers are practically in a position to obtain the tobacco for any price they choose to pay.

In the latter case, the tobacco is sold privately by growers, who usually have an indefinite idea of market prices, to buyers who are fully informed. The sales frequently are made on the farm and confirmed by contracts that are more binding on the seller than on the buyer. The sale of tobacco is made before the tobacco is harvested. At the time of the transaction the tobacco may be so far from being in a marketable condition that even the buyer is unable to determine its value, in which case the farmer usually gets what the buyer estimates to be a safe price or chooses to offer.

In a bulletin published by the Massachusetts Experiment Station, it is stated that "under the contract method of sale, the farmer has all to lose, with no corresponding gain; the buyer, little or nothing." The same statement would apply equally as well to the "auction system," department specialists say.

Because of lack of grades, the tobacco producer is unable to determine if he is receiving a reasonable price for his product. There is no basis for comparison between the prices paid in one community and those paid elsewhere. Quotations of one market usually mean little in other markets, for they are not based upon recognized standards of quality.

In October, the Bureau of Markets, United States Department of Agriculture, held hearings in a number of cities for the purpose of discussing with tobacco growers, merchants, dealers, bankers, warehousemen, and others interested in the industry, tentative regulations for warehousing tobacco

under the provisions of the United States warehouse act. These hearings were attended by members of the trade who were representative of the tobacco industry generally and considerable interest was shown in the bureau's work. At first, there was an attitude of skepticism regarding the benefits to be derived from the warehousing of tobacco under the provisions of the warehouse act. Doubt was expressed that the bureau would be able to devise satisfactory tobacco standards, but in every instance, before the end of the hearing, the bureau's intention to take immediate action in carrying out its plans to place the marketing of tobacco upon a sound basis, was approved.

Under the provisions of the United States Warehouse Act, the Secretary of Agriculture is authorized to license warehouses for the storage of cotton, grain, flax seed, wool, and tobacco. The chief purpose of the act, with respect to tobacco, is to establish a system of warehouses in which tobacco may be safely stored and through which the industry can be more easily financed and tobacco more advantageously marketed. To accomplish this purpose, the act is designed to provide a form of warehouse receipt which will be readily acceptable and widely negotiable as security for loans. Any warehouse that adequately protects the tobacco stored therein may be licensed. The regulations under the act provide for inspection of the premises at irregular intervals, examinations of the commodities stored, and observance by the warehouseman of standards of business practice.

Since the passage of the act, more than 300 applications for warehouse licenses have been received by the Bureau of Markets, the majority of them during the last year. Producers and warehousemen now appear to appreciate the benefits to be derived from the warehouse act. The bureau's regulations for the warehousing of tobacco

WINNERS WENT ON TRIAL THIS MORNING.

Harlan, Ky., Jan. 19.—Preparations were being made today for summoning special venire for the trial of Dr. H. C. Winnes, charged with the murder of Miss Lura Parsons, Pine Mountain Settlement School teacher, in the event that the regular panel is exhausted when the case is called for trial in Circuit Court here Thursday.

The trial is expected to last a week or ten days, according to attorneys for both sides.

Although both sides already have announced that they were ready for trial, Judge B. C. Hill, chief counsel for the defense said today that he still was uncertain as to whether or not a continuance would be sought. He said that final decision depended upon a number of things which he could not discuss.

A. Floyd Byrd, of Lexington, is among attorneys for the prosecution.

COLDEST OF SEASON IN VARIOUS SECTIONS.

Washington, Jan. 19.—The coldest weather of the season prevailed Tuesday night generally throughout the Middle Atlantic and New England States, according to the Weather Bureau. At Northfield, Vt., the temperature registered 24 degrees below zero.

A marked rise in temperature has taken place over the Mississippi Valley, the Plains States and Rocky Mountain region, the bureau's announcement said, and warmer weather generally East of the Mississippi tonight and Thursday was forecast.

Rain or snow was forecast for tonight and Thursday in Tennessee, the Ohio Valley and the region of the Great Lakes and Thursday in the North Atlantic States.

SPECIAL SESSION REPORT DENIED BY MORROW.

Frankfort, Ky., Jan. 19.—"Any statement that I had determined to call a special session of the Legislature for any purpose is absolutely untrue, without any foundation of fact and is a deliberate misstatement," said Governor Edwin P. Morrow today after he heard that the Louisville Post was carrying an article from Williamstown to the effect that he was to call a special session of the Legislature for the purpose of passing a redistricting bill.

"The Post never asked me for information concerning this matter. A simple message to my office would have brought the truth concerning it. I am surprised that a great daily should fail to request direct information before the publication of such a story," said the Governor.

"If a special session of the Legislature is hereafter called, it will be alone for the good of Kentucky and the welfare of its people."

BERT SURE OF JOB IN CABINET—UPHAM.

Miami, Fla., Jan. 19.—President-elect Harding plans to write his inaugural address during his stay in Miami, according to Frederick W. Uppham, national Republican treasurer, here to help "shoo" away the crowds, as he expressed it. Mr. Harding is due here next week from St. Augustine on Senator Frelinghuysen's yacht.

Alvin T. Hort, of Louisville, and R. M. Houston, of Chattanooga, will doubtless be chosen for cabinet positions, said Mr. Uppham, adding that Mr. Harding was determined to wipe out the imaginary political line that divides the north and south.

FIGHT ON OVER FREE SEEDS.
Washington, Jan. 19.—The annual fund for free distribution of seed by Senators and Representatives was eliminated from the agricultural bill today by the House Sub-committee on Appropriations, but a sharp fight for the retention was expected to be made in the House and Senate. The fund this year was \$239,000.

MAYSICK COLORED CITIZENS ASK AID IN SCHOOL EQUIPMENT

Unassisted Progressive Colored Citizens of Mayslick Have Erected School—Now They Ask Aid For Equipment.

The colored citizens of Mayslick have begun a much needed thing—a new school house. For the last five years these thrifty people have denied themselves every pleasure and luxury, have remained on the farm, and saved and sacrificed, so that their children might have a comfortable school building.

The Mayslick neighborhood supplies two-thirds of the colored farm laborers for this county. But for the last few years colored families have been leaving this community and going to Ohio for better school conditions. These good colored folks wish to stop this going North by the construction of a new school house in which shall be taught the common school branches principles of farming and domestic science and manual training.

The relations between the white and colored citizens of this progressive little village have always been ideal. Therefore it will be a good investment for the white farmers to have enough, at a reasonable wage, colored farm laborers in their community, by coming to the rescue of these colored people in their struggle for better school building.

These deserving colored folks have raised enough money among themselves to get the building under roof. To do this they have not asked aid of either white or colored friends; but the building needs yet to be completed inside and to be equipped with school fixtures. To meet these two needs they are asking their white and colored friends everywhere to come to their help. These people have now exhausted their efforts.

The following persons, all of Mayslick, are authorized to receive or solicit money through mail or in person: Jas. H. Hicks, Jack W. Story, Eli Holden, Willie A. Taylor, V. B. Holtz, W. H. Painter, Geo. W. Anderson, V. A. Williams and the ladies of the different clubs.

PRAYER MEETING TONIGHT.

Regular mid-week prayer service will be held at the First Baptist church this evening at 7 o'clock and the public is cordially invited to attend. Members are urged to attend.

REPAIRING TREESTLE.

C. & O. carpenters are engaged in making extensive repairs to the large treestle extending from Limestone to Bridge streets.

COLORED CITIZENS.

Luncheon will be served by Mrs. Hattie Davis at Scotts church during the meeting of the W. H. M. S. Friday at 2:30 p. m. in honor of our pastor and family, Rev. and Mrs. J. M. Hayden. All members are urged to be present promptly.

Mr. and Mrs. Joseph Alexander left Tuesday for Lexington where Mr. Alexander will be examined by a government officer.

Mr. John W. Taylor is still improving; hoping to be out soon.

D. OF C. CELEBRATES HEROE'S ANNIVERSARY.

The Daughters of the Confederacy met with Mrs. Edwin Matthews on the afternoon of January 19th to celebrate the birthdays of those heroes of the South—Robert E. Lee and Stonewall Jackson. Miss Lucy Lee read "An Appreciation of Robert Lee" by a noted Englishman; Mrs. Lucian Matthy "Lee's Place in History"; Mrs. Clarence Wood, "Story of Stonewall Jackson," and Miss Ida Wall, Dr. Beverley Tucker's beautiful poem, "Stonewall Jackson" written for the unveiling of the Jackson monument at Richmond. On the conclusion of the program delicious refreshments and a very delightful social hour were enjoyed by the Daughters and their guests.

Lame Back, Dizziness, Darting Pains, J. J. Wood & Son Guarantees Thompson's Barosma Kidney Tablets.

A new medicine for the kidneys is now being sold. In a few hours it starts to unclog the kidneys and drive out all those impurities that are keeping you from enjoying good health.

If you have kidney or bladder trouble, or suspect that you have; if your urine is high colored or scanty, don't wait till too late, but get at once a box of Thompson's Barosma Kidney Tablets, and in a few days your bad symptoms will diminish and you will feel like a new person. Good to purify the blood and a splendid tonic.

Sixty cents a box. If your druggist does not keep them send 60 cents to the Thompson Medical Co., Titusville, Pa., who will send them to you prepaid.

"I knew him since he was knee high to a duck, and fight? Say he'd back a rattler right into his hole." That was Job's recommendation to the Border Rangers. HARRY CAREY in

"Blue Streak McCoy"

A stirring outdoors story rich with romance and winding up with one of the most desperate fights you ever saw on the screen. Harry Carey's rough-riding cowboys in the role of the border rangers. Thrilling gun battles and fistic combats. "Breezy" Eason and Bennie Alexander, two of the cleverest children appearing on the screen, assume prominent parts in this Harry Carey picture. "Because little Job McCoy wore golden curls was no sign he couldn't lick the bully." Lila Leslie, Ruth Golden and Ruth Royce "Three Leading Ladies" assume stellar parts in this production. Others in the cast are Charles Arling, Roy Ripley and Charles Le Moyné.
